

Lancaster Water Week and
our 2019 Science Seminar Series *presents:*

A Pioneer in Science:

The Conestoga study and the woman behind it

Monday, June 3

at The Ware Center in Lancaster, PA

Dr. Ruth Patrick was a visionary ecologist, a champion of environmental protection, and a mentor and inspiration to future scientists for more than seventy years. Her 1948 Conestoga study, which combined biological and chemical data to assess the river's pollution level, was a major breakthrough in the study of freshwater science.

Learn more about Dr. Patrick, her career as a scientist, and her pioneering research with distinguished research scientist, Dr. Bern Sweeney.

**For more information, call
610-268-2153, x288 or email
jprovinski@stroudcenter.org.**

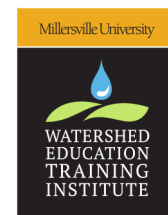

Location: The Ware Center
42 N Prince St, Lancaster, PA 17603

Doors open at 6 p.m. for light refreshments.

Lecture begins at 6:45 p.m. and event concludes by 8:00 p.m.
